

IRC-PHONE II

Cordless Telephone with Built In IR Receiver

IR DECT - Telephone

The IRC-Phone II is a cordless DECT GAP Telephone with a built-in IR receiver.

- Directory for up to 500 names
- 9 Speed Dials
- Backlighting display
- Big letters
- Handsfree Mode
- Headset connector
- List of Messages
- Base included
- HD Audio

All keys of the phone can be used by infrared and doing so the whole functionality of the phone is available for the user.

The use of the phone by care persons is still completely possible by using the keys.

When using a PILOT voice control this can be set up to supply 10 speed dials.

Linking other DECT GAP handsets is possible as well as connecting the IRC-Phone handset to already existing DECT GAP telephones.
